ALYSSON PARADIS

A FREE AND CONNECTED MUM

MADE IN POLAND

Comfortable cuts to give kids ample room for movement, soft cotton fabrics and delicate motifs... This winning trio from the workshops of Antwerp-trained designer Agata Piechocka head of the Polish brand Miszkomaszko, is more than enough reason to keep tabs on this collection. miszkomaszko.shoplo.com

KIDS

BITABLE

With this model in the shape of a biscuit, the rug and cushion brand Lorena Canals gives us quite an appetite. Being a mother herself, with a practical turn of mind, the designer has made her collections machine-washable. So kids having fun and home decor are not incompatible. lorenacanals.com

KAWAII COLLAB

Nothing could be prettier than this collaboration between Rilakkuma, the star *kawaii* character in Japan, and the French shoe brand Clotaire. In beige, royal blue, red, taupe or silver, these Mary Janes are sweet enough to eat. chaussuresclotaire.com, smallable.com

HIDE-AND-SEEK

The clever design of this little desk from Nidi keeps our youngsters' creative tools hidden tidily away. Great for those budding artists who tend to drop their sheets of paper and felt-tips all over the house. nidi.it
